MAYOR'S ADDRESS.

GENTLEMEN OF THE CITY COUNCILS :

We have met here to-day and taken the oath of office for the several positions to which we have been elected, and as we now enter upon the responsible duties pertaining thereto, let us one and all firmly resolve to do them well and thoroughly, and to the best interests of this people and our beloved city.

For myself, I feel under deep obligations to my fellow-citizens in that they have again and for the third time elected me to the highest office in their power to bestow. It will be my earnest endeavor to always merit such confidence.

During the past year our rate of taxation has been considerably reduced, and this with no detriment to any branch of service ; if a still further reduction can be made, then we, in common with every other tax-payer, will rejoice.

Let me remind you at this time that it is not the Mayor but the city councils who by their votes increase or decrease taxation.

Our schools still maintain the high standing of previous years, and it is gratifying to note that the few changes decided upon last season have further advanced their general status. We have an excellent corps of teachers, and certainly the very apparent progressive condition of their several charges is the best evidence of the faithful performance of the duties committed to their trust. I shall early call your notice to the lack of room in school district No. 1 — a matter which had the serious though rather late attention of our last city government. I trust that when the subject is properly brought before you, it will meet with your immediate and favorable consideration.

During the past year our city has been remarkably favored in exemption from disastrous fires, due in part to our watch-

ful and efficient department. The new steam fire engine, No. 2, contracted for at the Manchester Locomotive Works, has been received, and proves, by common consent, a valuable acquisition to the service. I will also note that 1400 feet of new hose has been purchased, a part of which is at hand, the balance to arrive in a few weeks. The steamer Moses H. Goodrich, No. 4, has undergone thorough improvements at the hands of Messrs. Critchley & Whalley of this city, and is now one of the best engines in the department. I would ask your early and serious consideration of the several important recommendations made by the Chief Engineer in his annual report. I must not leave this subject without saying that too much praise cannot be bestowed upon the officers and members of our fire department, who knowing their duties, perform them well and faithfully. Certainly, the compensation received by them is but a small reward for such invaluable services.

To the guardians of our city, the City Marshal and members of the police force, are due our acknowledgements for the excellent order and freedom from crime enjoyed during the past year. I wish here to express my appreciation of their services, and the hope that no change will be made in the force. When we have well disciplined, thoroughly tried and courteous police, any change must be injurious to the good order of the city.

As usual, our streets and sidewalks are in good condition, due to the prompt care and foresight of the Street Commissioner, who has ever shown a desire to make and keep them a source of pride to us all.

In regard to the almshouse and city farm, I can only reiterate what has been said before, that under the management of the superintendent, and his wife the matron, everything pertaining thereto is as it should be, and to the best interests of the city.

The poor of the city have been well cared for in the past, and it will be your duty to make proper provisions for their future support; on the board of overseers of the poor rests the responsibility of a judicious expenditure of such sums as you may appropriate for this worthy object.

I am pleased to state that the suit of the Portsmouth & Dover Railroad against the Eastern Railroad, for rent due, result-

ed in favor of the former, the validity of the lease and all matters pertaining to the construction of the road having been vindicated beyond the possibility of a doubt.

In the annual report of the City Solicitor you will learn the nature of the suits against the city. Since then new cases have arisen, and in each one I believe the city to be right. I would here thank the Solicitor for his quick response at all times when called upon officially by me.

The subject of public bathing places is now attracting the attention of our people. No feasible plan has as yet been offered, and I ask that you will give this subject your consideration, that some action may be taken thereon.

It is many years, if ever before, since our city has shown such marked signs of improvement as now ; new houses have been built and old places modernized, while added to this, a new industry has been started, which I sincerely trust is the beginning of an era of prosperity for the community. No place offers better inducements for those seeking business or pleasure, than does this beautiful city of ours.

Gentlemen, in closing, I must express the hope that in the deliberations that are to come before us, we may, by harmonious and united action, do everything in our power that shall be just and needful to advance the common welfare and prosperity of our home.

CITY GOVERNMENT, 1880-81.

Hon. WILLIAM H. SISE, Mayor.

Aldermen.

Ward 1—Charles A. Shannon, William F. Noyes, George T. Vaughan.	Ward 2—Jeremiah F. Hall, John H. Slater, Thomas E. Call.
Ward 3—Jeremiah Sanborn.	Ward 4—William S. Hazel. Henry F. Hartshorn.

D. J. VAUGHAN, CITY CLERK.

Common Councilmen.

CITY SOLICITOR'S REPORT.

TO THE HONORABLE BOARD OF MAYOR AND ALDERMEN
OF THE CITY OF PORTSMOUTH:

Gentlemen: In submitting my third annual report at this time, I am first of all led to say, that in my judgment the Ordinance requiring this report, should be amended so as to fix some different time for its submission; for in December either the October Term is incomplete, or is so lately completed that, as this year, my informal statement to this Board embraces everything briefly, thus making the report a mere enlargement of what I have already stated to you. If the report were to be presented some time in September, when the Board is newly organized and after the summer vacation of the Courts, when the session of the Referee term, if one is held, is recently completed, and the October term is approaching, the Board and the Solicitor both would, in my judgment, derive more advantage from it; and I would respectfully suggest that the Ordinance be amended in this respect.

I would also respectfully call the attention of the Board once more to a matter of which I spoke a year since, namely, that of taking some steps to limit, by legislative enactment, the liability of cities and towns in actions for personal damages upon highways, and would respectfully suggest that the Board call upon our delegation to the Legislature to endeavor to procure some such legislation as exists in Maine and elsewhere, for the protection of Municipal Corporations in this respect.

The year just ended has been a pretty busy one in my department, several actions having been tried and determined by juries, others by the courts, and still others by Referees. There remain unfinished the following actions:

1st. Thomas Quinn *vs.* Portsmouth. Action for injuries received by falling on the ice. This action has been referred to Hon. C. G. Conner, and is to be tried Tuesday, Jan. 4.

2d. Eastern Railroad *vs.* Portsmouth. Petition to avoid erecting gates at North End crossings. This case has been partially heard by the County Commissioners — has been transferred to full bench on questions of law, briefs have been furnished and the matter now awaits the decision of the Court.

3d. Trust and Guarantee Co. *vs.* Portsmouth. Petition for abatement of taxes. This case is really finished, it having been tried at an adjournment of the October term, and the judge not yet having made his decree, or at least communicated it to either party.

4th. John H. Jenness *vs.* William E. Hadley, Collector, and—

5th. Same *vs.* George W. Pendexter et als., Assessors. Actions arising out of the arrest of Mr. Jenness for non payment of taxes assessed against him. These actions have been referred to Hon. Joseph W. Wiggin, and a hearing is to be had shortly.

6th. William E. Hadley, Collector, *vs.* John J. Pickering. Bill in equity to compel said Pickering to transfer certain bank stock sold for taxes. This will, it is hoped, be reached at the ensuing January term.

7th. Henry R. Stoddard et als *vs.* Portsmouth. Petition for extension of Vaughan street through Raynes' ship yard. The papers in this action have but just been served upon the city, so there is nothing to report in the matter, except that I have, by order of the Mayor, retained Hon. J. S. H. Frink to assist me in looking out for the rights of the city.

There is also a claim for highway injuries filed on behalf of Mr. and Mrs. Odiorne of Rye for injuries she claims to have received by slipping on the ice, but this has not yet been sued on.

The work in the Police Court this year has embraced 314 criminal complaints that have been tried, and a number which for various reasons have not come before the court; and on the civil side two actions in which the city has been trustee. The latter have been disposed of, without appeal, and will not trouble the city further.

In conclusion, I wish to express my thanks to his Honor the Mayor, the members of this Honorable Board, the City Clerk, the City Marshal, and all the members of the Police Force for their courtesy and kindness to myself, and the many favors that I have received at their hands whenever we have been officially brought in contact.

All of which is most respectfully submitted.

WILLIAM RUSSEL FOSTER,
CITY SOLICITOR.

REPORT OF CITY MARSHAL.

TO THE HONORABLE BOARD OF MAYOR AND ALDERMEN
OF THE CITY OF PORTSMOUTH:

Gentlemen:—I respectfully make the following report of the number of persons arrested and lodged, the cause of arrest, and the amount of fines and costs collected, during the year 1880:—

Whole number of arrests, 767.

Assaults	73	Found dead	2
Assaults, aggravated	6	Insult	6
Assault, with intent to rob	1	Insane	1
Assault, indecent	1	Larceny	22
Breaking glass	7	Malicious mischief	15
Breaking and entering	12	On suspicion	11
Brawl and tumult	21	Rescuing prisoners	1
Bastardy	2	Runaways	5
Bigamy	1	Receiving stolen goods	3
Common drunks	2	Resisting officer	1
Cruelty to animals	2	Selling liquor	5
Conveying liquor to prisoners	1	Selling without license	1
Drunks	490	Threatening life	1
Deserters	11	Truants	12
Disorderly house	4	Vagrants	12
Disorderly conduct	7	Vagrant and tramps	5
Disorderly persons	1	Violating Sunday ordinance	11
Delirium tremens	2	Violating ordinance	3
Disobedience	1	Violating night ordinance	1
Exposing person	2		
Fast driving	2		767

There have been lodged during the year 1880, 351 persons.

There has been collected in payment of fines and costs during the year, \$697.16.

Respectfully submitted.

THOMAS ENTWISTLE, CITY MARSHAL.

PORTSMOUTH, January 1st, 1881.

CHIEF ENGINEER'S REPORT.

TO HIS HONOR THE MAYOR AND BOARD OF ALDERMEN :

Gentlemen: In compliance with the Ordinance defining the duties of Chief Engineer, I herewith present the annual report of the condition of the Fire Department; a list of fires that have occurred during the past year, with a statement of the amount of loss, and the amount of insurance on the property destroyed, as far as ascertained; the amount of property belonging to the city, under my charge, a list of the members, with their ages and residences, and a list of the reservoirs with their location and condition.

MEMBERSHIP.

The Department now numbers one hundred and thirty-one men, viz.: Chief Engineer, and four Assistant Engineers, Clerk of Fire Department, three Steamers' companies consisting of twenty-one men each; two Extinguisher companies of ten men each; one Hook and Ladder Company of twenty-one men; one Hose company of three men; four steam engineers, three steam firemen, two drivers, and six men on relief steamer, and supply wagon three men.

APPARATUS.

The apparatus of the Department consists of three steam fire engines with hose carriages attached, and one steamer in reserve; two extinguishers; one hook and ladder truck; one supply wagon, and two horse hose carriages.

Steamer No. 1 was built by the Portland Company. Put into service in 1864.

Steamer No. 2 was built by the Manchester Locomotive works. Put into service in 1879.

Steamer No. 3 was built by the Amoskeag Company. Put into service in 1870.

Steamer No. 4 was built by B. S. Nichols & Co. Put into service in 1876. Re-built by Messrs. Critchley & Whalley in 1879.

The steamers and extinguishers are in good condition and reliable. The hook and ladder truck is *not* reliable, and I would recommend that a new one be bought to be drawn by horses.

HOSE.

There are 8100 feet of leather hose in the Department,

(2400 feet of which are unfit for use and should be sold.)—150 feet of cotton hose, together with 2100 feet of *new* cotton hose bought the past year; also 2300 feet of leather hose, 800 feet of which have been delivered.

HOUSES.

The engine houses are in a fair condition. A few repairs are needed on the houses of Nos. 3 and 4.

RESERVOIRS.

The reservoirs are thirteen (13) in number. I would call your attention to the necessity for a larger supply of water. I would recommend that a reservoir be built on State street near the Unitarian church. Also, that a pipe be laid from the reservoir on Hanover street to the corner of Vaughan and Congress streets, and that larger pipes be put into each of the reservoirs.

I would renew my request in relation to the building of a half-tide gate at Liberty Bridge, as no water could be obtained in that portion of the city should a fire occur at low tide, the reservoir on Atkinson street having been abandoned on account of the sand which mixes with the water and injures a steamer if placed there.

FIRES AND ALARMS.

The fires and alarms from January 1, to December 31, number twenty-one. The value of property destroyed and the amount of insurance on the same is shown elsewhere.

EXPENDITURES.

The amount of money expended during the past year is \$9653.71, of which \$5660 was for salaries and \$3993.71 for contingent expenses, including \$800 which was expended for repairs on steamer No. 4.

I would renew the request made last year, viz.: that the Marshal's office be connected by an electric wire with the several breweries. An alarm could be more promptly given by notifying the watchmen at the breweries by telegraph than by the bell.

In conclusion, I would express my thanks to his Honor the Mayor, and to the members of the City Councils for their earnest efforts to promote the efficiency of the Department, to the City Marshal and his assistants for the aid they have rendered, to the Board of Engineers and the officers and members of the several companies for the prompt and efficient manner in which they have discharged their duties.

Respectfully submitted,

STEPHEN L. MARSTON,
CHIEF ENGINEER.

PORTSMOUTH, N. H., Dec. 31, 1880.

ANNUAL REPORT

OF THE

CHAIRMAN OF BOARD OF INSTRUCTION.

TO THE HONORABLE BOARD OF MAYOR AND ALDERMEN :

In compliance with the law, I present this my third annual report as chairman of the Board of Instruction, and accompanying it the reports of the several committees of the Board during the year now past.

Again I am pleased to announce to you that the cost of education the past year has been less than the appropriation, and that for the ensuing year no increase will be asked for.

To the teachers, none too great is the praise due them for faithful performance of duty the past year, as is shown by the high standard of the schools under their charge ; and here I would urge upon parents and all others interested in educational matters to frequently visit our places of instruction, and thus become better acquainted with the manner of conducting them.

There is still great need of more room in District 1, and I shall hope for some early improvements there.

Last year I called your attention to the course of study pursued in the High school, suggesting that the choice between classical and English branches should be elective with the pupils. This conclusion was arrived at by me after consultation with both parents and teachers. The High School committee favored the idea, and the result was that out of a class of forty only two voted for a strictly English course of study. Notwithstanding this, I see no reason for changing my opinion, and would ask the serious consideration of the subject by this Board.

It is imperative on me to again call your attention to the manner in which our school houses are heated, and to urge upon you the great need of a change in this respect. I am confident that very considerable saving can be made by substituting coal for wood. I would leave to your honorable body the most economical way to bring this about, and also the selection of such school house or houses as you may deem advisable to come under this change. In considering the annual

appropriations, I trust you will vote to raise a sum sufficient to carry out these views.

To the efficient secretary of the Board, I wish to tender my hearty thanks for the generous aid he has rendered to me during the last year.

Hoping that these suggestions will be favorably received and considered, I am respectfully yours,

WILLIAM H. SISE,
CHAIRMAN BOARD OF INSTRUCTION.

PORTSMOUTH, December 31, 1880.

GRAMMAR GRADE COMMITTEE REPORT.

TO THE CHAIRMAN OF THE BOARD OF INSTRUCTION :

In compliance with section 4th of the Regulations, the committee on the Grammar Grade herewith submit the following report :

The several schools in this department have undergone but few changes during the past year. By the retirement of Miss Emma F. Johnson from the sixth division of the Haven school, and a general transfer of pupils to other rooms, the first and second divisions have been increased so as to number about fifty scholars each, thus bringing the average number in these divisions up to that of the schools of similar grade in other parts of the city. The same corps of teacher who have served acceptably for several years past still continue their labors with us. We believe them to be earnest, faithful and persevering, manifesting great interest in the progress and well being of those under their charge. A large majority of our pupils finish their education in the Grammar school, and it is a matter of the greatest importance to them that none of their time be

wasted, but that it be devoted to those studies, and those only, which are most practical and useful, and that the time given to them be so divided and economized as to give opportunity for the widest possible range of acquirements. As it is now generally recognized that the study of language is the most important of any in our school course, it is suggested that more time might be profitably spent on this study, even if technical grammar thereby receive less than is now given to it. It has been truly said that the greatest hindrance to the intelligent progress of our youth is their limited knowledge of the meaning and use of the most common words. "The ability to express one's self well, both in conversation and writing, is acquired by familiarity with good models, and the teacher who expresses himself best and teaches his pupils to give the best expression to their thoughts is worthy of the highest praise."

The change in spelling books and adoption of Warren's Class Word Speller marks a new era in this study. First, by greatly reducing the number of words to be committed to memory. Second, by introducing common words and such as the child would be most likely to hear and use in his conversation. Third, and best of all, the use of these words is illustrated in written sentences, serving the purpose of both a speller and language lesson.

COMPOSITION.

It has crystallized into an adage that "no one knows anything perfectly unless he is able to write it down;" and if we can rely on reports concerning this study, there is the most thorough and accurate, as well as rapid progress, where it is properly practised. It should be imposed in simple and attractive ways, on familiar topics, and should be practised as often as two or three times weekly, or, better, every day if possible. Results witnessed in one of our schools where this is frequently practised convince us of its importance, and we hope during the coming year to witness still greater proofs of its efficacy.

In conclusion, we think it safe to say that the schools have made material improvement during the year, perhaps not as much progress as we might wish, but remembering that the growth of everything valuable is slow, it may be wise, if we cannot "prove all things," to at least "hold fast that which is good."

A. C. HOYT,
MERCER GOODRICH.
O. M. KNIGHT.

INTERMEDIATE GRADE COMMITTEE REPORT.

An annual report must necessarily be a repetition of former years, having had no changes in the school work. The schools present the same general features as formerly.

There has been one change of teachers in this grade during the year, viz.: Mr. Kidder's resignation, and the placing a lady, Miss Garrett, in his position, and we can most cordially say that the school has suffered no detriment from the change, although it has been considered, for years, a school which could not be governed by a lady; but the experiment has proved a success.

We can but wish that more attention be given to physical exercise, not as a task, but as recreation when restlessness prevails, or when there is evident weariness from prolonged recitation. In language, we would suggest that more attention be given. *All* recitations should be regarded as exercise in the correct use of language. Nothing fixes knowledge so definitely as to state it in our own language. Much information on subjects not connected with the school work may be imparted by the teacher, to be reproduced by pupils. Whenever an imperfect or ungrammatical sentence occurs, let some pupil correct it. In some such way a three-fold advantage will be gained: in grammar; in composition; and in learning to express one's thoughts correctly.

The sewing in this department is very satisfactorily performed, and we bespeak for the sewing teachers aid and encouragement from the regular teacher, feeling how important is this necessary accomplishment. We know it is to the *seeming* disadvantage to the school to break the classes, giving to the girls instruction in a branch of work, in which the boys cannot participate, and taking *from* the girls the time which the boys are giving to recitations or study; but we assure the teachers that the end to which we look is not how *far* have the classes gone? but *how well* have they done the work gone over?

ANNA B. WILSON,
A. B. SHERBURNE,
JAMES R. MAY.

PRIMARY GRADE COMMITTEE REPORT.

What of our Primaries? New floors and desks have been put into the rooms of the Franklin school house, to the great satisfaction of all concerned; why the desks of the teachers have not been removed as well as the pupils', does not seem clear, especially as an important primary lesson is "to finish what we begin."

The lower room of the Bartlett school, (where eighty children and two teachers were remorselessly penned up, having appealed to the city in vain for relief,) Nature at last came to the rescue, and so effectually thinned out the school by sickness, that its fifty remaining scholars can be left under *one* teacher, Miss Rand, while Miss Hoyt is detailed for service elsewhere. It is not the remedy we should have chosen, but Nature often has to hasten reforms by the spur of penalty. Pupils in other schools have enjoyed their usual health.

Good work has been done in our grade—in some of the schools very good work. We note with pleasure the courtesy which characterizes our teachers in their intercourse with their pupils, begetting a corresponding courtesy on their part.—There is nothing more depressing to the young than a scolding, snarling, complaining tone, which is soon caught by them in return, making good work as well as good manners alike impossible.

Several of the teachers have asked for a map of New Hampshire, feeling that knowledge, like charity should begin at home. We recommend that maps of our own state be hung in all the primary rooms.

Two valuable teachers, Miss Giddings and Miss Johnson, have left us during the year. Cutting down the pay of our primary teachers may partly account for this loss, since these ladies find they can do better elsewhere. Economy of this kind is not only a blunder but a wrong. As this grade lays the foundation of education, it should have the best work of the best teachers, for which our appreciation is best expressed by good pay. If we can by wise changes, make twelve teachers do the work of thirteen teachers, (our present number) and do it as well, former salaries may be restored, which no doubt ought to be done. •

We learn that Mr. Perkins, one of our head masters, read a fine paper at our State Institute, recently held in Manchester, upon Primary teaching. We now suggest that he put his excellent suggestions into immediate practical working among those under his charge, thus giving the city the benefit of what he knows and we do not. This is the way of progress.

Would it not be well, also, for the primary teachers some

times to meet and confer together on their methods of instruction, experiences, new hints or suggestions which any of them may have received, and in this way, help and perfect each other in their great work.

HELEN C. KNIGHT,
JOHN PENDER,
JOHN H. LOCKE.

SUBURBAN GRADE COMMITTEE REPORT.

TO THE CHAIRMAN OF THE BOARD OF INSTRUCTION:

It is not practicable for your committee to visit the Suburban schools except at somewhat rare intervals, but we have endeavored to give as thorough an examination of the proficiency and discipline, from observation and other sources of information, as possible, and are happy to present a generally favorable report of their condition.

At the Woodbury school, Mr. Dennett continues in well-doing, and a commendable degree of improvement is shown.

At the Plains school, Miss Newton has succeeded Miss Garrett. This school still suffers from the presence of a half-dozen evil-disposed pupils, but the supervisor is determined that the rules shall not be disobeyed, and the committee confidently expect the insubordination, which has been so detrimental to the success of the school, will be eradicated before the close of the term. Notwithstanding this mischievous element, Miss Newton has made good progress, and her painstaking, conscientious method shows a good result. The school building is very much out of repair, and the contrast between it and the pleasant rooms at Lafayette Road and Gravelly Ridge is marked.

The school under the charge of Miss Rothwell, on Lafayette Road, is in good condition; the teacher has the faculty of imparting her energy and thoroughness to her pupils, and the result is, of course, very gratifying. The suburban schools do not have the services of the writing master and other advantages which the schools in the compact part of the city have, and a large number of the pupils can only attend school during about six months in the year. These causes affect the percentage, and the general scholarship, but the work done is acceptably to your committee.

CHAS. W. GARDNER,
D. J. VAUGHAN,
W. C. NEWTON.

PROGRAMME OF STUDY

OF THE

Grammar, Intermediate and Primary Schools.

Sixth Division.

SECOND CLASS.

Reading, five hours a week. Words as wholes learned from charts and pictures. Make clear to the child's apprehension the difference between an object, its picture and its name. Every word to be first spelled by sound; and at the proper stage of progress, word-cards must be freely used to make sentences from.

Letters can now be taught by their names. 1st Reader completed.

Spelling, three hours a week. Words on charts from all reading lessons, and names of familiar objects by letter and by sound; as soon as pupils can write, there should be a daily exercise in writing words from dictation.

Arithmetic, one and one-third hours a week. Count to 50 by 1's, 2's, 3's, 4's and 5's. Ideas of counting and combining numbers to be developed by use of numeral frame. Give thorough drill in writing Arabic numerals on the slate and black-board, using forms as found in Spencerian system.—Write and read numbers to 60.

FIRST CLASS.

Reading, five hours a week. 2d Reader completed. Questions on *meaning* of all reading lessons. Names, forms and uses of all punctuation marks occurring in reading lessons.

Spelling, three and two-thirds hours a week. Words from all reading lessons; names of objects in and about the school-room; names of other common and familiar objects.

Arithmetic, two hours a week. Count to 100 and back by 1's, 2's, 3's, 4's and 5's. Roman notation to C. Write and read numbers to 1000. Addition tables, and multiplication tables to 10 and 12, as found on Hoyt's Combination Card. Add three columns of figures, six in length. Multiply by one figure.

Writing. Frequent exercises in writing letters and words

on slate and black-board; Spencerian system, holding pencil in proper writing position.

FIRST AND SECOND CLASSES.

Oral Instruction, one hour a week. Good morals, politeness, cleanliness of person and dress. Form, size and color. Pupils to be taught by frequent conversations on common objects, to express their ideas freely in correct language.

Music, Gymnastics, and General Exercises, one and one-third hours a week. Vocal music; and free gymnastics for the upper part of the body, every session.

Devotional Exercises, one hour a week. During the longer afternoon sessions of the school year, the apportionment of time shall be as above, except in 1st class Arithmetic, two and one-half hours, and 2d class Arithmetic, one and five-sixths hours a week. Oral Instruction, both classes, one and one-third hours a week.

Directions. Pupils should at no time be allowed to sit idle for lack of employment. Recitations should be short and varied. No exercises should exceed 20 minutes in length — 15 minutes preferable.

Fifth Division.

SECOND CLASS.

Reading, three and one-third hours a week. 3d Reader to lesson 41, page 106. Questions on the *meaning* of all reading lessons. Names, forms and uses of all punctuation marks. Daily exercises in the sounds of vowels.

Spelling, one and five-sixths hours a week. Pupils to spell and define words occurring in reading lessons; their own names; names of city, county and State; days of the week, and months of the year; other common words.

Arithmetic, three hours a week. Count by 2's, 3's, — 10's to 100 and back. Write and read all numbers to 1,000,000. Addition, subtraction and multiplication tables as found on Hoyt's Combination Card. Roman notation, both oral and written. Frequent exercises in adding and subtracting small numbers mentally.

Add six columns of figures, six in length. Multiply by two figures.

FIRST CLASS.

Reading, three and one-third hours a week. 3d Reader completed. Questions on the *meaning* of all reading lessons; punctuation marks; sounds of vowels and consonants.

Spelling, one and five-sixths hours a week. Review spelling of 2d class; spell from all reading lessons; names of N. E. States, and their capitals and chief cities: counties, cities and principal rivers in New Hampshire.

Arithmetic, three hours a week. Count by 2's, 3's,—12's, to 100 and back.

Write and read all numbers to 1,000,000,000. All tables on Combination Card to 12 by 12. Frequent exercises in combining small numbers. Addition, subtraction, multiplication by four figures; division by three figures.

Elementary Geography, two hours a week; to page 30.

FIRST AND SECOND CLASSES.

Writing, two hours a week. Spencerian Tracing Book, Nos. 1 and 2. Frequent exercises in writing capital and small letters; holding the pencil in proper writing position.

Oral Instruction, one hour a week. In Geography, with respect to the form and motions of the earth, the points of compass, etc. Special attention to be given the geography of our own city and State. Time by the clock; divisions of time; colors, form, etc. Child's Book of Nature, part 1st. Other instruction as in 6th Division.

Music, Gymnastics and General Exercises, one hour a week. Vocal music; and free gymnastics for the upper parts of the body, every session.

Devotional Exercises, one hour a week. During the longer afternoon sessions of the school year, the apportionment of time shall be as above; except in reading, each class, three and two-thirds hours, and in spelling, each class, two hours a week.

Oral Instruction, both classes one and one-third hours a week.

Directions. No pupil should be allowed to sit idle for lack of work. Recitations and exercises should be short and varied.

Fourth Division.

SECOND CLASS.

Reading, three hours a week. 4th Reader to lesson 36th, page 126th. Questions on the *meaning* of all reading lessons. Names, forms and uses of punctuation marks. Frequent exercises on the sounds of the vowels and consonants.

Spelling, one and one-fourth hours a week. Words occurring in lessons from all texts books used. Common and familiar words.

Arithmetic, two hours a week. Count by 2's, 3's and 4's—10's, 11's and 12's to 100 and back. All tables on Combination Card to 9 by 15. Frequent mental exercises in combining small numbers. Write and read all numbers to quintillions. Practical Arithmetic to Review Exercises, page 54th.

Mental Arithmetic, one and one-third hours a week. To Lesson 14th, page 33d.

Geography, one and one third hours a week. Elementary Geography to Section 6th, page 49th. Counties of New Hampshire. Location and boundary of our own city.

FIRST CLASS.

Reading, three hours a week. 4th Reader completed. Review other work of 2d class.

Spelling, one and three-fourths hours a week. Other work as in 2d class.

Arithmetic, two hours a week. Practical Arithmetic to Art. 120, page 87th.

Mental Arithmetic, one and two-thirds hours a week. Mental Arithmetic to English Money, page 52d. All tables on Combinaton Card.

Geography, one and five-sixths hours a week. Review work of 2d class. Elementary Geography, to Europe, page 67.

FIRST AND SECOND CLASSES.

Writing, one and one third hours a week. Writing Books, Nos. 1 and 2.

Oral Instruction, one hour a week. Lines, Angles, Plane, Figures, Objects, Trades, Occupations. Hooker's Child's Book of Nature, Part 2d. Other instruction as in 6th Division.

Music and Gymnastics, five-sixths of an hour a week. Vocal music; free gymnastics for the upper parts of the body, every session.

Devotional Exercises, one hour a week. During the longer afternoon sessions of the school year, the apportionment of time shall be as above, except the 1st class Practical Arithmetic, three and one-quarter; second class Practical Arithmetic, two and three-quarters; first class Geography, two and one-third; second class Geography, one and five-sixths hours a week.

Both classes. Oral Instruction, one and one-third hours a week.

Recitations and Exercises should be short and varied.

Third Division.

SECOND CLASS.

Reading, two hours a week. 4th Reader reviewed. Fall term, Intermediate Reader to Lesson 26th, page 95th. Frequent drill on introductory exercises. Questions on the *meaning* of all reading lessons. Names, forms and uses of punctuation marks. Frequent practice on the sounds of the vowels and consonants. Frequent drill in *diacritical markings*.

Spelling, one and one-half hours a week. Words occurring in lessons from all text books used. *Special* attention to

be given to the spelling of common geographical names, as States, territories, capitals, etc. Other common and familiar words.

Arithmetic, two and one-half hours a week. Review all tables and counting frequently. Frequent mental exercises in combining small numbers. Practical Arithmetic to page 119. Give frequent exercises in notation, numeration and the fundamental rules.

Mental Arithmetic, one and one-half hours a week. Mental Arithmetic to Lesson 33d, page 89th, omitting Lessons 10th, 21st, 22d, 23d and 24th.

Geography, one and one-third hours a week. Elementary Geography completed and thoroughly reviewed. Particular attention to be given to the geography of our own city, county and State.

FIRST CLASS.

Reading, two hours a week. Intermediate Reader, Lesson 56th. Other work as in 2d class.

Spelling, one and one-half hours a week. Other work as in 2d class.

Arithmetic, two and one-half hours a week. Practical Arithmetic to Art. 167th, page 144th, omitting pages 125th and 126th. For other work see directions for 2d class.

Mental Arithmetic, one and one-half hours a week. Mental Arithmetic to Lesson 36th, page 99th, omitting as directed in 2d class.

Geography, one and five-sixths hours a week. Intermediate Geography to page 23d.

Language and Composition, one hour a week. Pupils taught to select subjects from objects, and to describe their form, size, color and other properties. To develop their thoughts in sentences with proper use of capitals and punctuation marks. All grammatical instruction, according to the grammar used in 1st Division.

FIRST AND SECOND CLASSES.

Writing, one and one-third hours a week. Writing Books, Nos. 2 and 3.

Oral Instruction, one hour a week. National Flag. Abbreviation as given in the speller. Qualities and uses of familiar objects. Child's Book of Nature, Part 2d. Other oral instruction as in 6th Division.

Music and Gymnastics, five-sixths of an hour. Vocal music. Free gymnastics for the upper parts of the body, every session.

Devotional Exercises, one hour a week.

During the longer afternoon sessions of the school year, the apportionment of time shall be as above, except the first class and second class Reading, two and one-half; first and second

Geography, each, two; Oral Instruction, one and one-third; Language, one and one-half; Music, one; first and second Mental Arithmetic, each, two hours a week.

Second Division.

SECOND CLASS.

Reading, two hours a week. Intermediate Reader completed and reviewed. 2d term, 5th Reader to Lesson 23d, page 121st. Frequent drill on introductory exercises. Questions on the meaning of all reading lessons. Punctuation marks. Diacritical markings.

Spelling, one and one-sixth hours a week. Words occurring in lessons from all text books used. Special attention to be given to the spelling of geographical names. Other common names.

Arithmetic, two and one-half hours a week. Frequent mental exercises in combining small numbers. Practical Arithmetic to Art. 262d, page 188th, omitting "Decimal weights and measures." Give frequent application and illustrations other than those found in text books.

Mental Arithmetic, three-fourths of an hour a week. Text book to Lesson 40th, page 110th.

Geography, one and one-quarter hours a week. Intermediate Geography to page 54th. Thorough knowledge of Latitude and Longitude to be taught with the globe.

Draw N. E. States from memory.

Language and Composition one hour a week. Work of 3d Division continued in same manner. Parts of speech defined according to the grammar used in first class. Construct sentences. Correct errors in the use of language. Letter writing.

FIRST CLASS.

Reading, two hours a week. 5th Reader to lesson 61st, page 221st. Other work as in second class.

Spelling, one and one-sixth hours a week. Other work as in 2d class.

Arithmetic, two and one-half hours a week. Practical Arithmetic to Art. 320th, page 230th. Review all 2d class work.

Mental Arithmetic, one hour a week. Mental Arithmetic to Lesson 48th, page 133d.

Geography, one and one-half hours a week. Intermediate Geography to page 76th, reviewing previous work.

Language and Composition, one hour a week. Work of 2d class continued. Construct sentences. Correct errors in use of language. Short compositions on familiar objects. Letter writing, giving special instruction in regard to dating, address-

ing and signing, also the correct method of superscribing the envelope.

Oral Instruction on the parts of speech and their uses, different kinds of simple sentences and their analysis.

Grammar, one and one-third hours a week. Text book commenced. Parts of speech and their modifications, omitting the properties of the verb, other than person and number. Analysis of simple sentences.

FIRST AND SECOND CLASSES.

Writing, one and one-third hours a week. Writing Books, Nos. 3 and 4.

Oral Instruction, one hour a week. Leading points in U. S. History, as discoveries, the Revolution, the Rebellion, Presidents, sketches of prominent men, as Columbus, Franklin, Washington, King Philip, Patrick Henry, William Penn, etc.

City and State Governments. Subjects treated of in the first eight chapters of the "Manual of Commerce."

Devotional Exercises, one hour a week.

During the longer afternoon sessions of the school year, the apportionment of time shall be as above, except first class Mental Arithmetic, two; second class Mental Arithmetic, one and one-third; first Spelling, one and one-half; first Geography, one and one-half; first Grammar, one and two-thirds; Oral Instruction, one and one-third hours a week.

First Division.

SECOND CLASS.

Reading, one hour a week. 5th Reader continued. Questions on the *meaning* of all reading lessons. Occasional reading from papers, and books other than text books. Punctuation marks. Sounds of vowels and consonants. Diacritical marking thoroughly reviewed.

Spelling, one hour a week. Spelling of words occurring in all lessons. Special attention to be given to the spelling of geographical names. Common and familiar words.

Arithmetic, two and one-third hours a week. Practical Arithmetic to Art. 385, page 266, omitting Decimal Weights and Measures. Frequent applications and illustrations aside from the text book. Thorough practice on the fundamental rules.

Mental Arithmetic, one and one-half hours a week. Mental Arithmetic to Lesson 52d, page 144th. Review tables thoroughly. Frequent mental exercises in combining small numbers.

Geography, one and one-sixth hours a week. Intermediate Geography completed and reviewed. Map-drawing,—continents, United States.

Grammar, one and one-sixth hours a week. Correction of errors in the use of language, construction of sentences, analysis and parsing. Text book to be used with the class.

Physiology, one hour a week. Cutter's First Book, to Chapter 19th, page 89th. Comparative Anatomy and Appendix to be read and explained.

History, one hour a week. Campbell's Concise U. S. History to period 5th, page 169th.

FIRST CLASS.

Reading, one hour a week. See directions for 2d class.

Spelling, one hour a week. Complete the Speller. Other work same as 2d class.

Arithmetic, two and one-third hours a week. Practical Arithmetic completed and reviewed. Other work as in 2d class.

Mental Arithmetic, one half-hour a week. Completed and reviewed. Other work as in 2d class.

Geography, one and one-sixth hours a week. Review Geography.

Grammar, one and one-sixth hours a week. See directions for 2d class.

Physiology, one and one-half hours a week. Cutter's First Book completed.

History, two hours a week. Campbell's U. S. History completed.

FIRST AND SECOND CLASSES.

Language and Composition, one hour a week. Ten declamations a year, selections to be made from standard literature. Ten compositions upon variety of subjects, including biographical and historical sketches. Frequent exercises in the variation of the structure and phraseology of sentences. Letter writing to take place of composition three times during the year.

Writing, one and one-third hours a week. Writing Books, Nos. 4 1-2 and 5.

Oral Instruction, five-sixths of an hour a week. City, State and National Governments. Elements of the various sciences. Manual of Commerce.

Devotional Exercises, one hour a week.

During the longer afternoon sessions of the school year, the apportionment of time shall be as above, except the first and second class Arithmetic, two and one-half each; second Mental Arithmetic, one; first and second Geography, one and one-half; first and second Grammar, one and one-half each; first History, two and one-half; second History, one and two-thirds; first Physiology, two; second Physiology, one and one-third hours a week.

REGULATIONS

FOR THE

PUBLIC SCHOOLS OF PORTSMOUTH.

Classification.

The schools in this city shall be classified and divided as follows :

High, Ungraded, Grammar, Intermediate and Primary schools; the last three of which shall consist of two divisions each, and shall be called the 1st, 2d, 3d, 4th, 5th and 6th Grades, respectively. Each division shall have two classes, and may be allowed two years to complete its work.

Duties of the Master.

1. The Master of the 1st division in each ward shall act as a supervisor of the grades above mentioned.

2. He shall make such regulations for the discipline and government of the several grades as he may deem proper, subject to the approval of the Committee.

3. He shall mark out the course of study, and the limits of instruction in every branch for the several grades and classes, which shall be uniform throughout the city.

4. He shall secure uniformity in methods of instruction, as far as practicable or useful, and see that no text books are used in schools except such as are prescribed by the Committee.

5. He shall see, by frequent examinations, that the regulations are carried into effect, and that the instruction is efficient and thorough.

6. He shall have charge of and be responsible for the order in the school yards and outbuildings.

7. He shall have power to suspend any pupil who may be guilty of a flagrant breach of the law, such as truancy, or rebellion, in any division under his charge, until such pupils shall be reinstated, or expelled from school by the committee.

8. He shall examine and send to the proper grade all pupils desiring admittance to school, provided such pupils shall first have obtained a permit in writing from the chairman of the sub-committee.

9. He shall make the examinations for promotion, unless the district committee otherwise order. Promotions shall be made at the commencement of the Fall and Winter Terms, and at no other time except by the advice and consent of the district committee.

10. He shall devote at least one hour of every school-day to the examination of the attendance, the discipline and methods of instruction, the sanitary condition of the school rooms and yards, the pro-

gress of the several classes in each study; and shall make such suggestions to the sub-teachers as in his opinion will improve and elevate the several schools under their charge.

11. He shall have a book, furnished by the committee, and open at any time for inspection by them, in which shall be kept a record showing the whole number and average number in each division, the deportment of each pupil, also the average of daily attendance and percentage of daily attendance for each month, together with such other information relating to the several schools as the committee may wish to have recorded.

12. He shall, on the first of every month, report to the chairman of the sub-committee, in writing, a summary of the above named record.

13. All work on reports or the filling up of blanks, shall be done out of school-hours.

14. He shall appoint stated or occasional meetings of the sub-teachers for the purpose of consultation, or for instructing, advising or aiding them, in their various duties in the school-room.

General Regulations.

1. Those children only who have been vaccinated and who are upwards of five years of age shall be allowed to attend the public schools.

2. All the school rooms shall be opened and the teachers present at least fifteen minutes before the time for the session to begin, both morning and afternoon. The scholars shall be in their seats and the teacher open the services precisely at the prescribed hours, and no pupil shall be allowed to enter school during the exercises.

3. All the schools except the primaries will be required to keep the same number of hours during the week.

The hour of commencement in all the schools except the 1st, 5th and 6th Divisions, shall be 9 A. M. and 2 P. M. The sessions to be continued till 12 M. and till 5 P. M., except during the months of October, November, December, January, February and March, when they will close at 4 o'clock P. M.

The sessions of the first (Master's Division) shall commence at 8.30 A. M. and 2 P. M., and continue till 12 M. and 3 P. M., during the six months above mentioned and during the remaining five months the morning session shall commence at 8 and the afternoon session shall close at 3.30.

The sessions of the 5th and 6th Divisions shall commence at 9 A. M. and 2 P. M. The sessions to be continued till 12 M. and 4.30 P. M., except during the months of October, November, December, January, February and March, when they will close at 4 P. M.

4. In each school there shall be, daily, an exercise in vocal music and some gymnastic exercises; and each school shall have such recesses as may be deemed expedient by the principal teacher of the school; but such recesses shall not occupy more than twenty minutes to each session, including the time of going out and coming in; and during school hours no pupil shall be allowed to go beyond the limits of the school ground without special permission of the teacher.

5. It is recommended to each teacher to give frequent and thorough reviews of the subjects taught, with exercises and illustrations aside from the text books.

6. The term of employment of teachers, unless otherwise limited, shall in all cases cease with the end of the school year in which their service begins, and can only be extended by a new election; but every teacher shall be liable at any time to transfer, change of salary, or termination of employment, by action of the Board; and no teacher shall claim or receive more of the annual or other salary prescribed, than the *pro rata* portion thereof due for the period of actual service.

7. They shall give at least one month's notice of their intention to resign.

8. A register shall be kept in every school, in which shall be recorded the names, ages, date of admission, half-daily absence, tardiness and dismissals of the scholars. Each recitation shall be marked on a uniform scale; deduction shall be made for imperfect lessons, and the balance, at the end of each month, will determine the rank.

9. A written excuse shall be required for each absence or tardiness, from the parent or guardian of the pupil. Every pupil, in order to obtain a dismissal before the close of the session, must bring a sufficient excuse therefor in writing, and obtain the consent of the teacher at the opening of the session, and a separate excuse will be required for each dismission.

10. And in case any pupil be absent or tardy more than one quarter of the school days of one term, such pupil may be degraded to a lower class.

11. Each school shall be daily opened with the reading of a portion of Holy Scriptures, to be followed by the Lord's Prayer.

12. When any scholar has been absent ten half-days or more, within a month, or has become unnecessarily irregular in attendance, played truant, or in any respect behaved in a disorderly manner, after reasonable admonition and correction, the teacher shall report such pupil to the Master, who shall, at his discretion, make report to the chairman of the sub-committee, and the pupil, if so reported, shall not be again admitted to any public school in the city without a written order from the chairman of the sub-committee that have charge of the school.

13. The general examination of schools by the Committee will immediately precede the close of the Winter term, and the semi-annual examinations of pupils by the Master, for promotion, shall be made immediately after the close of the Fall and Winter terms.

14. Teachers shall be allowed one-half day in each term to visit other schools, for the purpose of observation and comparison, after making arrangements satisfactory to the Master and Chairman of sub-committee.

15. The order of exercises of every division shall be given to the Master, and by him to the Chairman of the General Committee during the first week of every term, and as often thereafter as it may be changed.

16. Teachers shall give their *personal* attention to the preservation of order in the entries and on the stairs, when pupils are filing in and out at the opening and closing of the school, and at recesses.

17. No playing shall be allowed in any school building.

18. No advertisement shall be read or distributed in any school, nor shall any public entertainment be announced without special permission from the Committee.

19. Every school room shall be furnished with a thermometer, and the temperature kept as near 68 degrees as practicable.

20. Any pupil who shall cut, or otherwise injure any school house, or injure any fence, trees, or outbuildings, belonging to the school-grounds, or shall write any profane or obscene language, or shall make any obscene pictures or characters on any school premises, shall be liable to suspension or expulsion.

21. Every pupil, on leaving school, shall obtain a discharge therefrom in writing, which shall be given by the principal teacher when the reasons for leaving are satisfactory; no pupil leaving any school in the city shall be allowed to become a member of any other public school, without first presenting such discharge, or by order of the General Committee.

22. No child shall be allowed to attend any public school unless cleanly in person.

Terms and Vacations.

The School year shall be divided into three terms:

1. The Fall Term shall commence on the Monday preceding September 1st, and close the last week day preceding Christmas; this term shall include a vacation of three days, viz.: Thanksgiving Day and the two days immediately following.

VACATION EIGHT DAYS.

2. The Winter Term shall commence on the first week-day following January 1st, and continue until the first Saturday in April.

VACATION ONE WEEK.

3. The Spring Term shall close on the Saturday nearest July 1st.

VACATIONS.

The above shall include all of the regular vacations except Washington's Birthday, Fast Day and Memorial Day.

Books Used.

Hillard's Readers, Warren's Class Word Speller, Greenleaf's Arithmetics, Guyot's Geographies, Campbell's Concise History United States, Gould Brown's First Lines in Grammar, Swinton's Language Lessons, Cutter's First Book in Physiology, and Spencerian System of Penmanship, new series.

A copy of these regulations shall be kept in every school room, and the teachers shall make themselves familiar with them, and see that they are faithfully observed.

BY ORDER SCHOOL COMMITTEE.

RULES AND REGULATIONS

FOR THE

BOARD OF INSTRUCTION.

SEC. 1. The regular meeting of the Board of Instruction shall be held on the first Wednesday evening of each month, at half-past seven o'clock.

SEC. 2. It shall be the duty of each member of the Board to become as well acquainted as possible with the condition of all the schools, and with the methods of instruction and the standard of the best schools in other places.

SEC. 3. In addition to the Committees having charge of the school districts, there shall be elected by the Board a Committee of three for the schools of each grade, the primary, the intermediate, the grammar, the ungraded and high schools.

SEC. 4. It shall be the duty of these Committees to make themselves familiar with the course of study, the teaching and the discipline in their own grade, and to make a written report to the Board at the end of each Fall Term, giving a full and exact statement of the condition of the schools of that grade throughout the city, with any suggestions or criticisms in regard to the teachers, the classes, or the course of study.

SEC. 5. At the regular meeting of the Board of Instruction in the month of July, the Grade Committees shall report the names of all the teachers then connected with the schools under their care, whose re-election for the ensuing year they recommend. The Board shall then proceed to the election of each teacher by ballot, and seven votes shall be necessary to elect. In each case when the Grade Committee does not so recommend, an examination shall be ordered.

SEC. 6. Whenever a vacancy occurs among the teachers, an examination, open to all applicants, may be held in the High School building and conducted by the examining committee. Notice of such an examination shall be published at least one month previously, and shall include a statement of the studies, and how far in each study the teachers for each grade shall be examined.

SEC. 7. These examinations shall give special prominence to questions relating to teaching; shall be marked on a scale of 100; shall be conducted by numbers instead of names; and all the papers relating to them shall be preserved, and at all times open to the Board.

SEC. 8. In making appointments from the various applicants, the Board shall have regard to attainments, experience, testimonials and character; shall give the preference, other things being equal, to those already teachers in a lower grade, and to those who are graduates of our own schools, and who are graduates of some Normal or training school. As soon as the examination papers are laid before the Board, it shall proceed to the election of a teacher or teachers, according to the provisions of Sec. 5.

SEC. 9. In case of sudden illness or necessary absence of any teacher, the Master in that District may furnish a supply for a period not exceeding three days; if the absence is prolonged, notice shall be given to the sub-committee, who shall appoint a teacher for the temporary vacancy, subject to the confirmation of the Board,—but no teacher shall in any case hereafter be confirmed until an examination is held, by the direction of the Board, as provided in Sec. 6.

SEC. 10. No charges shall be entertained against any teacher in the employ of the city, unless they are in writing, signed by responsible and interested persons, and setting forth the specific causes of complaint.

SEC. 11. An annual examination to fill vacancies, open to all applicants, may be held in the High School building, on some day in the month of August. Such an examination may be ordered at any time at the discretion of the Committee.

SEC. 12. The unanimous consent of those present at a regular meeting, or one month's notice and a two-thirds vote of those present, shall be required for a suspension of any rule or regulation of this Board.

SEC. 13. The Committee on Text-books shall keep themselves advised of the kind, cost and character of text-books, maps, charts and school apparatus in use in the public schools of this city, and shall examine such other text-books, maps, charts or apparatus as may be proposed for introduction. But no books shall be changed until reported upon by the said Committee, and by a vote of two-thirds of the whole Board, and the books in all the schools in the several Districts shall be uniform.

A FULL RECORD
OF
PUNCTUAL ATTENDANCE
OF THE
CHILDREN OF THE SEVERAL SCHOOLS.

District No. 1.

The following named pupils have been neither *absent* nor *tardy* during the YEAR ending December 31st, 1880 :

Ethel M. Greene,	Frank C. Hoyt	Charles H. Lovell
Carrie Wain	Willie Jones	Frank Moore.
George C. Grey		

The following named pupils have been neither *absent* nor *tardy* during TWO TERMS of the year ending Dec. 31st, 1880 :

Bertha E. Boynton	Lizzie T. McIntire	John Hartnett
Carrie A. Cate	Alice Morrissey	Calvin D. Lear
Edith N. Dixon	Gertie Trefethen	Fred W. Lydston
Florence Greenwood	Gracie Trefethen	Morris Lamprey
Nettie B. Hough	Clarinda Waterhouse	Frank W. Moses
Lucy M. Hoyt	John L. Berry	Henry Moran
Lizzie Jones	Willie H. Bryant	Harry McCombie
Emma F. Lord	Harry E. Boynton	Frank Philbrick

Number of pupils enrolled Dec. 31, 1880,	369
Males,	195
Females,	174
Average monthly membership,	338
Average daily attendance,	319
Per cent of attendance,	94.37
Number of tardinesses,	2177
Number of dismissals,	555
Whole number of different pupils attending during the year	504

HIGH SCHOOL COMMITTEE REPORT.

TO THE BOARD OF INSTRUCTION ;

The High School Committee respectfully present their Report for the year ending December 31, 1880.

During this year the school has well maintained its general character for discipline and faithful performance of work. The resignation, in June, of Miss Kate Cushing, who for fifteen months had filled the position of First Assistant, has made a recent change in the corps of teachers. The Committee have had reason to congratulate themselves on having secured the services of Miss M. Anne Wythe, who entered upon the duties of this office in September.

At the beginning of the school year, the Committee, in accordance with a plan which they have long contemplated, arranged and announced a Double Course of Study, which should offer to the new class, beside the regular course, of which Latin was a portion, a second course, from which Latin was dropped and in which another study was substituted. These Courses were made elective. By a very large majority the regular long-established course was chosen, two pupils only, out of a class of thirty-eight, voting for the new. Under these circumstances the Committee decided to continue for the present the system of a Single Course of Study. They have reason to believe that the great attention paid therein to the practical studies, so necessary as a preparation for business, is properly combined with instruction in classic authors, well-known among educators as an invaluable means of developing the mind and of aiding in English composition.

The Committee gratefully acknowledge the energetic co-operation of the Board of Aldermen in supplying, at the December vacation, a new furnace, of which there has been pressing need. It is hoped that the building can now be comfortably warmed in the coldest weather.

The School Statistics for 1880 are herewith submitted.

Very respectfully,

J. R. MAY,
D. J. VAUGHAN,
A. C. HOYT.

HIGH SCHOOL COMMITTEE.

PORTSMOUTH, N. H., Dec. 31, 1880.

Number and Attendance.

Whole number of pupils :

Girls,	79
Boys,	68
Total,	— 147
